a) main goal of paper

The aim of my study is to present the cross-border regions and operation of the cross-border development programs. This presentation covers mainly the Slovakian-Hungarian ETC-program. In the main part I will focus on two realized projects of the Slovakian-Hungarian ETC program (HUSK CBC).

b) content of paper

I want to highlight with the projects I have chosen, how supported organizations can cope with these quite long period of operation when the financial support run out and the supported organization has to finance the sustainability of development from its own resources.

c) achieved results

During the research, we can see that the sustainability of these projects have some positive and negative results. The supported regions can use this financial resources partly effectively. It depends on the topic, management and detail of projects.
