5. Content (max. 25 lines)

The object of this report is showing difficult situation on Opole's labor market including reasons of rising unemployment and ways to reduce it. Report shows statistics related with issues included in subject. They show the immensity of the problem, forcing analysis of causes. Next, will be developed subject effects with special case "closed circle of migration". Special attention also deserves a problem unemployment among young people, which shows disproportion of labor supply and demand for labor among people with different levels of education. The final part of the report is administration proposal attempts to limit the process of increase of unemployment and proposals to mitigate its effects. The conclusions from the analysis allow to conclude that labor market of Opole province is characterized by a profound imbalance.

6. Key words: labor market, Opole province, unemployment
