5. Content (max. 25 lines)

The main topic of this lecture is budget economy of Opole province in context of regional development in 2015. The main goal of this paper is to analyse quantitative data contained in budget of Opole voivodenship and to compare them with other polish provinces. The report is divided into three parts. The first one contains review of definitions connected with region and regional development. Next part focuses on budgets. Same as first part shows some definitions, but also issues related to the mode and method of passing the budget. The last part shows the results of performed analysis mostly using tables and graphs. As achieved results author assumes the position fix of Opole province in level of regional development on the background of other provinces in Poland in 2015.

6. Key words: regional development, budget, Opole province
