The main purpose of my talk is to present how important it is for people to see the whole picture when it comes to the world of money. Since money is such a broad concept, I would like to narrow it down to its essentials and focus on certain issues such as what is there to consider when choosing a financial institution. I would also like to give an insight into the advantages and disadvantages of investments with a special emphasis on what it is worth investing in in Hungary.

6. Key words (3-5 words)
money, finance, banking, investment
